

Piano By Scott

Rate Sheet - Effective November 2023

I provide transparent upfront pricing for my customers with no surprises. With my services, you will receive an experienced musician who is punctual, prepared, and professional. The below guidelines provide a basis for the cost of my services, but each client has unique needs. If you need only what is listed below, your quote will be very close to these numbers. If you have special requests, those will be included for an additional cost. **Each client will receive a customized quote once the details of their ceremony are received.**

For an exact quote - please visit the 'Request Wedding Quote' section of pianobyscott.com

Estimates:

Ceremony - \$300 - Includes up to 90 minutes of music (prelude, ceremony, postlude). You can select from my repertoire and I will learn a reasonable number of songs at your request. This assumes a piano of acceptable quality is on-site and no additional equipment is needed.

Rehearsal - \$200 - Highly recommended so that I can learn about the timing of the ceremony and when to do 'what' and 'when'. This helps to reduce the stress for everyone if we have rehearsed together, and you will likely receive a better result.

Instrument - \$150 - If a piano is not available on site. My keyboard will need amplification, and this assumes a sound system is available. If sound equipment is needed please see the next section.

Sound - \$150 - includes two powered 12" monitors on stands with all cables and cords. Able to cover even medium to large venues.

Officiant Sound Support (Wireless Microphones / Mixer) - If you are using sound equipment for my music, many couples find it easy to use my equipment for their ceremony officiant also. It can also be used for other musicians/vocalists as needed.

Extras to consider:

- Travel/mileage outside of a 90-minute drive from Bloomington, IN (no additional charge for Northern Indy suburbs)
- Rehearsal time for vocalists/instrumentalists (if desired)
- Extensive requests not in my repertoire
- Requests where no sheet music exists (will transcribe/arrange as needed)
- Cocktail hour jazz piano/lounge music
